200 Center Point Circle, Suite 200  
Columbia, SC 29210 USA

October 3, 2008

Dear Sirs / Madams,

Hubbell Power Systems, Inc. (HPS) announced today a reorganization of their sales activities marketed under the USCO Power Equipment. Previously, USCO Power Equipment marketed their respective products under their own established network of independent manufacturer representatives. HPS will consolidate the sales activities for USCO Power Equipment under the existing HPS utility sales organization which includes a combination of company employees and manufacturer's representatives. This change will be effective December 1, 2008 and allows HPS the opportunity to provide continued consistent sales support to our utility customers while offering them a single point of contact. The existing customer service activities for USCO Power Equipment will remain intact with all of the existing support personnel within the businesses in place. No change to any existing quotations or orders already processed with USCO Power Equipment will be required. We thank you for your continued support of HPS and look forward to working with you to supply the same high level of technical support, order administrative and customer service that you have come to expect and realize from the existing representation and USCO Power Equipment, in the past.

Your local Hubbell Power Systems sales representative will contact you in the near future. If you have any questions regarding this change, please feel free to contact USCO Power Equipment or the HPS sales management representative at one of the phone numbers or e-mail addresses listed below.
